## Experience & Technology Designer

### Work Experience

#### Kingdom London

- Experience Designer & Technology Officer  
Aug 2018 - Present
- Experience & Technology Designer  
Jun 2017 - Aug 2018
- Digital Designer  
May 2014 - Jun 2017

I have worked at Kingdom London for just under five years. During this time I have progressed from Digital Designer to the lead experience designer & Technology Officer. I work across all departments of the business from project pitching and management through to UX & UI design and developer relations. Over my time with the agency I have secured and completed interactive projects for a range of Cultural institutions such as the Natural History Museum, Science Museum & National Museums Scotland. I have also worked with commercial names such as Toyota, Blue Diamond & Campari.

#### Kingdom X

- Digital Designer  
Apr 2016 - Feb 2018

During my time at Kingdom X I managed the content & concepts for the Toyota Explore AR app. Managing the current content packages produced and producing new packs for different european markets. I also handled the creation and deployment of new experience modules.

#### GR/DD

- Junior Digital Designer  
Feb 2014 - May 2014

GR/DD Formed into Kingdom London at the end of April 14. In the four months before the merger I worked as a junior digital designer working on UX and UI for clients such as the V&A and Thomas the Tank Engine.
